地球社会統合科学府では、学府改組にあわせて、平成26年度に概算要求特別経費採択課題「統合的学際教育を基盤とする高度グローバル人材養成プロジェクト」を開始いたしました。

地球社会統合科学府は、高度グローバル化社会への対応や我が国の国際競争力の強化に資することを期し、文理融合を含む統合的学際教育の推進、広い視野に立つ教養と専門性、異文化理解・協調のスキルなど、グローバル人材としての基礎的資質の涵養を掲げて発足いたしました。本プロジェクトは、このような「国際的に誇れる大学院教育システム」を強固な基盤の上に加速的に実現するために、新学府への改組と平行して申請を進め、採択されたものです。

これまでプロジェクトでは、学府の理念をさらに加速して実現する推進力をつけるとともに、九州大学全体の機能強化を果たすことを目的として、著名な海外研究者チームのユニット招へい、「外国語ライティング」「地球社会統合科学」など高度学際教育の実効性を担う教育システムの開発、部局研究者チームの海外派遣などを実施してきました。

プロジェクトの柱となる海外研究者チームの招へい事業においては、海外主要大学の著名な研究者をユニットで招へいして、国際セミナー・コロキウムを開催、学府生を対象とした特別講義・フィールドトリップを実施してまいりました。今後もひきつづき、本プロジェクトでは年間二・三チームのユニットを招へいすることとしており、国際的高度専門職業人・研究者の養成や学際性の高い教育グローバルネットワークの構築に資する事業であると確信しております。

これまでの海外研究者のユニット招へいの実績や成果を学内外に発信し、さらなる研究・教育の国際化推進に寄与することを目的として、報告書を発刊することといたしました。

この度は、創刊号として、プロジェクトとして初めて招へいを行った研究者チーム北村隆則教授（香港中文大学）、玄大松教授（韓国国民大学）、Willy Lam教授（香港中文大学）の三名の先生方によるセミナー「東アジア地域協力・地域秩序の未来」を報告いたします。先生方には現代東アジア国際論という分野から、アジア統合についての最新研究動向と関連付け、中国と韓国および多様な東アジア領域における問題について異なる視点から検討・検証を行って頂き、参加者にとってはわが国を含むアジアの将来について再考する機会となったことを実感しております。

ご多忙の折、長期の滞在を伴う招へい事業にご協力頂き、現代東アジア国際論という視点で本学府の研究教育にご尽力頂いた先生方には、この場を借りて改めて厚くお礼を申し上げます。

今後もプロジェクトでは、統合的学際教育を基盤として多様な研究分野における海外研究者の招へいを継続して行い、より強力に教育研究のグローバル化ならびに高度グローバル人材の養成を推進することにより、プロジェクトの目標達成に部局の総力をあげて尽力する所存です。

Introduction

Project Supervisory Chairperson
Yoshiaki Furuya

Our Graduate School of Integrated Science for Global Society has launched “the Advanced Global Training Project for Integrated Academic Education” as the adopted subject which is based on a rough estimate of the budget for special expenditures in the fiscal year of 2014, in accordance with the reconstructing of the previous graduate school.

The Graduate School of Integrated Science for Global Society was inaugurated, and expects to contribute to the response to the highly globalized society and the strengthening of global competitiveness in Japan while fostering natural endowments as global human resources, such as the promotion of integrated academic education including fusion of humanities and sciences, education and expertise with a broad-ranging perspective, and the skills for cross-cultural understanding/cooperation, etc. This project aims to realize this “Graduate School Education System That Can Be Boasted About to the World” on a solid foundation. The application to the program along with the reconstruction toward the new graduate school was advanced and adopted.

So far, in the project, along with cultivating the propulsive force by speeding up to realize the principles of the graduate school even more, for the purpose of achieving functional enhancement of Kyushu University as a whole, the invitation of prominent overseas research teams as a unit, development of an educational system that bears the effectiveness of the advanced interdisciplinary education, such as “Foreign Language Writing” and “Integrated Sciences for Global Society”, and overseas dispatch of the team of researchers of the departments have been conducted.

During the invitations of overseas research teams as the pillar of the project, we hosted multiple teams of prominent overseas researcher in a unit annually, held international seminars/colloquiums and conducted special lectures/field trips targeting the graduate school students. We believe that it contributes to foster international advanced professionals/researchers and construct a highly interdisciplinary educational global network.

We decided to publish the report for the purpose of dissemination of the performance and results of the invitations of overseas researchers, thus far, both inside and outside of the graduate school and the contribution to promote internationalization of further research and education.

In this issue, we would like to report the seminar “Future Prospect of East Asian Regional Cooperation and Formation” provided by Prof. Takanori Kitamura (The Chinese University of Hong Kong), Prof. Hyun Daesong (Kookmin University) and Prof. Willy Lam (The Chinese University of Hong Kong). The seminar was a great opportunity for the participants to cultivate a better understanding about East Asia and lead us to consider the possibility and prospects for the future in Asia. Please allow me to take this opportunity to

express my gratitude, as the invitation was significantly beneficial for not only the departments but also for the entire university.

In the future, in the project, by continuing to invite overseas researchers in various research fields based on integrated interdisciplinary education and promoting globalization of educational research and more vigorously fostering highly globalized human resources, we intend to make full-scale efforts for the achievement of the goal of the project.
